

Name: Castillo, Christian James P.

Topic: Think in Boxes

Website Name: Anilist

Header – <nav>, <ul>, <li>, <img>, <a>

In the header, there’s a list of links, including the Anilist logo and five additional links for Home, Social, Forums, Login, and Sign-Up.

Landing Page – <h1>, <h2>, <img>, <p>, <button>

The landing page includes primary and secondary headings, such as the main title ("The Next-Generation Platform" - <h1>) and the subtitle ("Tweak it to your liking" - <h2>), which appears on the right side of the image. There’s also an image and a paragraph beneath the <h2> heading. The descriptions are placed under the <h2>. The join now is the button placed at bottom part of the landing page

Filter Container – <ul>, <li>, <label>, <select>

The filter container contains a list of filter options, with labels and select elements for different filter criteria.

Main – <section>, <nav>, <a>, <ul>, <li>, <img>, <h2>

The main content is divided into two sections: the upper portion and the lower portion. Each section contains links, h2 and a list of images.

Footer – <select>, <ul>, <li>, <a>, <img>, <label>

The footer consists of a label and image (for "Site Theme"), several links for different social media platforms, APIs, Contact, Statistics, etc.

- Legends:
- Big Blocks (Header, Landing Page, Filter Container, Main, Footer)
  - Smaller Element (h1,h2,h3,nav,ul,li,img,a,label,select,section,button,input)
